

PosiKon Camlock Hose Coupling Automatic Locking Lever

The ultimate Quick-Connect Coupling Safety Solution,
for hazardous liquid transfer.

- * **User friendly automatic locking system.** Just close the levers and it's locked ! Remains locked until you choose to unlock.
 - * **Efficient.** Just press the pin under your thumb and open the levers. Real easy ! No clips to pull or to lose.
 - * **Ergonomics & Safety.** The operator is not " in the line of fire", because the design Encourages the operator to stand 'behind' the coupling to efficiently unlock the levers.
 - * **Space friendly.** No bulky exterior components to impede operation in restricted areas.
 - * **Materials.** Stainless Steel CF8M grade 316 investment cast camlock coupling, levers and pins. Nitrile rubber seal. [Viton rubber also available on request].
 - * **Sizes:** Available in sizes 25 to 150mm nd [1 thru 6 inch id].
 - * **Types :** Couplers: Parts B, C, D, and DC. Adaptors: Parts, A, E, F and DP are Standard.
- Pressure Ratings to US Military Specifications:** Sizes ½" -4", 150 psi . Size 6", 75 psi.
- Threads:** BSP or NPT.

Manufactured in ISO 9001 Certified Foundry.
